

HONG KONG SINDA THERMAL TECHNOLOGY LIMIED.

A HEATSINK AND PRECISION METAL PARTS CUSTOMIZING PROVIDER

ABOUT US

Our factory was Founded in 2014, and located in Dongguan city China, we are providing varieties of heatsinks and precious metal parts. Our plant possesses advanced high precious CNC machines and stamping machines, also we have kinds of testing and experiment instruments and professional engineering team, so our company can manufacture and provide high quality products which possess high precision and performance and exceed the imported products. All the products accord with RoHS/Reach standard. Our company has been a partner with many customers for good quality, excellent service and competitive price. We have a terrific reputation in this industry.
